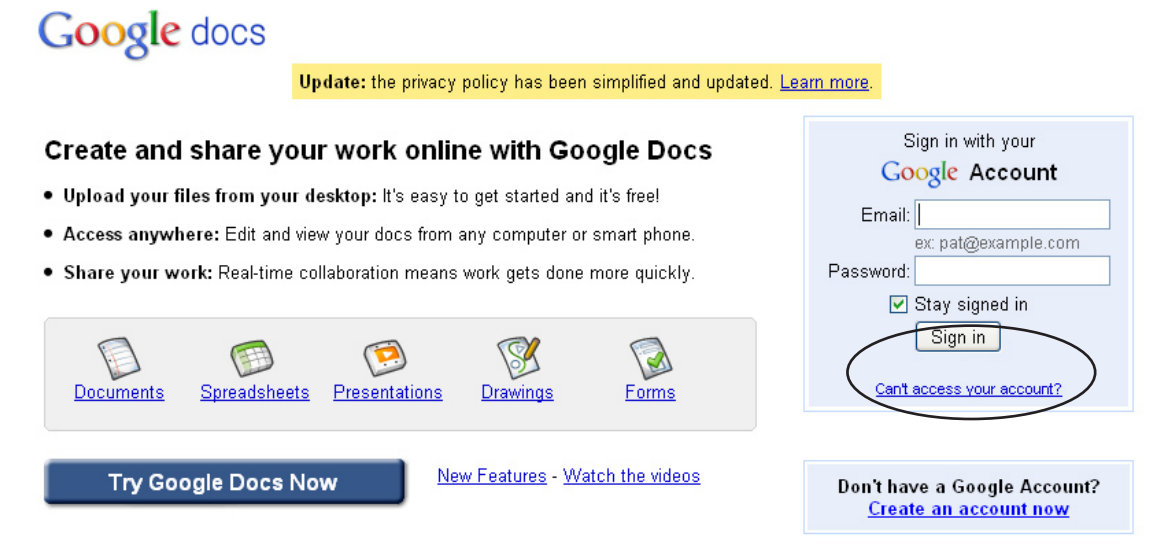
Using the Player Availability Link

The player availability link helps the team prepare the roster ahead of time if players are going to miss games. It is important to let Steve know if you are going to miss a game so a sub can be arranged to fill your spot. This spreadsheet is an easy way to plan ahead games you will not be available for.

Step 1.
On the availability link, click on the EDIT SPREADSHEET link on the bottom of the page.

Step 2.
You will be taken to a google docs login screen. This is where the spreadsheet is kept. You will need to create an account (it's free) using your email address you provided me. Once created, you will use the same login every time. I have allowed only Roster players and Subs the ability to edit this page. It might prompt a "request access' email to me to let you in. Once approved, you will be able to continue to step 3.



Step 3.
Once inside the page, find your name and game time and mark the cell with "In" or "out"
